## THE NEWS IN A NUTSHELL

### Condensed Dispatches, Home and Foreign.

### The Wheat Situation Improving Considerably.

### Yellow Fever in New Orleans Causes Many Deaths—Heavy Rains at San Diego.

SAN FRANCISCO, October 13.—Arthur E. Cecil, aged 21, a stenographer, residing with his parents at 19 Belvedere street in this city, was arrested early this morning in the act of breaking into a saloon, after having driven his mother and sisters from his home and shot at his father several times with a rifle.

CHICAGO, October 13.—News affecting the wheat market was about evenly divided at the opening. Liverpool cables were slightly lower at the outset. There was also a London *Times* cable saying that rains had practically assured the Argentine harvest and that 37,000,000 bushels would be exported from the crop.

December, which closed yesterday at 90¼c opened today at 90¼c and 90⅜c. There was quite influential selling for a time, influenced mostly by the breaking of the Argentine drought and a slow decline to 89⅞ resulted.

WASHINGTON, October 13.—The international court of arbitration which is to pass upon the British-Venezuela boundary, has been completed by the selection of M. Muerteus, a distinguished Russian jurist, as umpire, and arrangements are being made for the assembling of the court at Paris during the late summer or fall of next year.

LONDON, October 13.—The foreign officials appeared to be astonished at what they termed the "tone of surprise" assumed by Secretary Sherman in his reply to the note of the Marquis of Salisbury, expressing Great Britain's declination to be represented in the conference with Russia and Japan, as briefly outlined today in the dispatches from New York.

NEW ORLEANS, October 13.—This was the record smasher in the number of deaths on a single day from yellow fever since the sickness was first reported in New Orleans. At 7 o'clock this evening there had been nine fatalities reported during the twenty-four hours.

SAN JOSE, October 13.—Mrs. Cambridge, aged 81 years, an inmate of the Women's Relief Corps home at Evergreen, was probably fatally burned early this morning by her clothes catching fire from a lighted candle, which she placed on the floor.

SAN DIEGO, October 13.—There was a heavy shower late this afternoon. It is partly cloudy tonight.

A telephone message from the Boston ranch at El Cajon, the largest raisin producer in the county, says that there was a heavy rain in that valley at 6 o'clock. But they had had warning and got the raisins under stacks.

LOS ANGELES, October 13.—The case of Theodore Durrant was up before the supreme court today. No argument was made and it was continued over to the Sacramento term which will begin a few days after the United States supreme court has had opportunity to pass upon the appeal before it in the same case.

SAN JOSE, October 13.—The trial of Dan Dutcher for the murder of George W. Schofield was called today in Judge Lorigan's court. There was nothing of importance in the first day's proceedings as the time was taken up in selecting a jury. This work has not yet been completed, and the taking of testimony cannot possibly be reached before tomorrow.

### Irrigation Directors Refuse to Act.

MODESTO, October 13.—The board of directors of the Modesto Irrigation District met this afternoon to fix the tax levy for the current year. The board consists of but three members as two have resigned and their successors have not qualified. A resolution to fix the rate at $1.84 on the $100 valuation was defeated. The secretary was instructed to notify the county Board of Supervisors of the refusal of the irrigation directors to act. In case the latter do not order a levy the bondholders may bring a suit of mandamus against the irrigation directors to compel them to make the levy.

### A Hotel Swindler in Trouble.

SAN FRANCISCO, October 13.—R. N. Ruffin, a lawyer, who is said to be a counterpart of William J. Bryan, so far as external appearances are concerned, was convicted today of having defrauded the proprietor of the Occidental hotel by Police Judge Conlan. At first when Ruffin and his wife were unable to meet requests made for a settlement of their bill they were unfortunate, but since his arrest Ruffin's record has been looked up, and he is said to have defrauded hotels in Denver, Salt Lake, Ogden, Auburn, Bakersfield and other places in various parts of the country.

### In Favor of the Railroad.

SAN FRANCISCO, October 13.—The railroad commissioners today dismissed the complaint of August Muenter of Stockton against the Southern Pacific. He charged that the railroad was illegally collecting a higher fare for passengers who paid cash on the trains than from those who bought their tickets at the regular ticket offices. In dismissing the complaint the commissioners said that there is a law in California permitting railroads to charge 10 per cent additional where passengers failed to procure tickets before boarding trains.

### Found Life a Burden.

RIVERSIDE, October 13.—The remains of an unknown man about 35 years of age, much decomposed and past identification, were found this afternoon at the outskirts of the city. The deceased was well dressed, and in a pocket was found a watch and a small sum of money; also a small piece of paper, on which was scribbled "Manuel Pappers, Los Angeles county." Near by was a phial labeled "corrosive sublimate." It is evidently a case of suicide.

### BY A NEW ROUTE.

The Klondyke Mines Will Soon Be Easily Reached.

SAN FRANCISCO, October 13.—Information has just been received that the Canadian Pacific railway has placed two corps of surveyors with a view to opening up the Stickeen route to the Yukon mines. From the mouth of the river to the point at which the road down the Yukon will begin there are said to be no engineering difficulties and it is believed the line can be kept open seven months in the year.

It is proposed to run a fast line of steamers from Victoria to Fort Wrangel. Steam vessels can run up the Stickeen river for 149 miles, from this point a railroad will be built to Teslin lake, 125 miles further. Light draught steamers will be placed on the Yukon and it is believed that Dawson City may be reached in ten days from Victoria or thirteen days from San Francisco.

### W. D. GRADY IN TROUBLE.

Is Indicted in San Francisco for Embezzlement.

W. D. Grady, the Fresno attorney, has been indicted by the grand jury in San Francisco on a charge of embezzlement, which he is alleged to have committed by retaining $320 belonging to the Bennett estate. He was one of the executors of the estate.

Grady left this city a few days ago, saying that he was going to San Jose on business. The *Chronicle* in regard to the indictment says: "The aggrieved parties made several attempts to have the attorney, who is likewise a politician, arrested, but were refused a warrant for his arrest as often as they applied in any department of the police court."

## LUETGERT WEEPS

### The Sausage Maker's Love for His Child.

### His Counsel Makes an Eloquent Plea to Save His Neck.

CHICAGO, October 13.—The entire day in the Luetgert trial was taken up by Attorney Phalen, who spoke for the defense. He made an impassioned plea for his client, accused the police of intimidating the witnesses for the defense and denounced many of those who had appeared for the state as perjurers.

Adolph Luetgert shed tears this afternoon, when, at the adjournment of court he took leave of his little son. Early in the day Luetgert showed emotion and his eyes were moist as Attorney Phalen pleaded with the jury to spare his client's life. Luetgert is breaking down. This was the universal verdict of those who have watched the man during the two months of his trial.

The strain upon him is great, and, at last, his nervous system is weakening. The giant sausage maker does not sleep well at night of late. The near approach of the date upon which he will know his fate at the hands of the jury has completely upset him by the anxiety it has brought him.

Recorder Clark was busy yesterday afternoon with a civil suit, J. Holmes vs. J. T. Dow, an action to secure the payment of $116, which Dow collected on an order in 1895. Holmes received the order from M. J. Laymance for labor and it was on Griffin, Skalley & Co. He gave the order to M. E. Sanford for collection, and the latter transferred it to Dow. Dow collected the amount and as Sanford was indebted to him he gave him credit for the same. This left Holmes loser, as Sanford broke up in business and moved away from Fresno, so he brought suit against Dow for the amount.

## FIRE LAST NIGHT

### Bostick & Wakefield's Store Burned.

### Loss $1200; Insurance $900—Engine No. 2 Takes a Tumble.

Last night about 9.30 o'clock fire was discovered in the grocery store owned by Bostick & Wakefield and located at the corner of Fresno and K streets. An alarm was turned in, and the firemen responded promptly, but the flames had made such progress that the contents of the store were destroyed or irreparably damaged before their arrival. The building was not burned to the ground, but the flames left only a shell, so it will be almost a total loss.

The origin of the fire is a mystery, as it broke out in a small shed room at the side of the building, which was used for storing barley and hay. It is thought that possibly the fire resulted from a cigar or cigarette thrown into this room. No motive for setting fire to the building could be discovered. The money drawer and safe were not tampered with, and apparently no one had been in the building from the time it was closed by the proprietors until the fire.

The exact losses could not be ascertained last night. Mr. Wakefield stated that there was a stock valued at from $1200 to $1500 in the building, and that it was insured for about $900. The building belongs to William Betteridge, and the loss on it is probably $200. Messrs. Bostick and Wakefield did not arrive at the scene of the fire until it was almost extinguished. Both live quite a distance from the business portion of town.

Engine No. 2, Pabst driver and Harris engineer, upset while turning the corner of Fresno and H streets. One of the horses slipped, swinging the tongue around and causing the engine to turn over on its side. Pabst was not strapped in his seat at the time and this saved him from a severe accident. Both driver and engineer escaped without injury. The engine was damaged but little and it was upristed and driven back to the engine house. Pabst is an experienced driver and in no way to blame for the accident. This is the first accident he has had during his long service in the department.

Another accident was narrowly averted by the driver of the chemical engine while turning the corner of Fresno and J streets. The turn was made too short, and the engine went up on the sidewalk in front of the Barton opera house. It was a very narrow escape.

## ALASKA TO BE DIVIDED

### The Gold Fields to Form a Territory.

### Government Officials Approve the Scheme.

### The Town of Weare on the Yukon to Become the Territorial Metropolis.

SAN FRANCISCO, October 13.—A message from Alaska brought by the revenue cutter Thomas Corwin tonight via St. Michaels, conveys the news that it is proposed to establish a new territory to be known as Lincoln out of the northwest portion of Alaska.

Its boundaries have not yet been fully decided upon but it will include the Yukon river country and extend north to the Arctic ocean.

The scheme meets with the approval of the North American Transportation and Trading Company, the officers of which recently held a conference on the matter with Senator Carter of Montana and several other United States officials.

The new town of Weare, situated on the Yukon river about half way between Dawson City and St. Michaels, has been chosen for the capital of the proposed territory. It is understood that Ely Gage, son of the secretary of the treasury, is a prominent candidate for governor in case a territorial organization is effected.

Captain Herring of the Corwin states that many of the steamers going up the Yukon are unseaworthy, and he strongly advises prospectors, especially those from the East, not to buy tickets on any vessel until they are satisfied that they will be able to make the trip. When the Corwin left St. Michaels on September 24th the steamer Hamilton had started up the Yukon, expecting to winter wherever timber could be found. The Seattle No. 1 was also going in with Mayor Wood and party. She will also winter on the river. The W. H. Merwin, an old side wheeler, carrying 140 passengers, and the Mare Island have sailed for Dutch harbor for winter quarters, but it is doubtful whether they will get further than St. Michaels, as they have sixty miles of rough water to cross and both are cranky river boats.

The steamer Eliza Anderson still remains at Dutch Harbor but her passengers have gone on to St. Michaels in the schooner Baronoff. They wanted to board the Merwin but the captain declared that he could not accommodate them. They were persistent and wanted to draw lots with those already on the vessel for the use of sleeping quarters. Upon the captain refusing their request some of the Anderson's passengers became aggressive and bloodshed was only averted by the action of Captain Herring who strongly advised all parties against any breach of the peace.

There is intense feeling against the promoters of these winter expeditions to the Klondyke and serious trouble may yet occur.

### Acquitted of Abduction.

LOS ANGELES, October 13. — John Foster, the man accused of having abducted Lee Mayne from her home in Downey, was discharged this afternoon, the jury bringing in a verdict of not guilty in accordance with instructions of Judge Smith. The accused could not be positively identified as the assailant of Miss Mayne.

## WILL PAY HALF

### Creditors of Chaddock & Co. Meet.

### The Firm Able to Settle for Only Fifty Cents on the Dollar.

The affairs of Chaddock & Company, the raisin packers who suspended business day before yesterday, are in a more serious condition than was at first thought. The creditors of the firm had a meeting at the packinghouse in this city yesterday, and E. G. Chaddock made a statement to them, in which he said that he did not believe that the accounts could be settled dollar for dollar. He did not see the way clear to pay more than half, 50 cents on the dollar. Even then, according to Mr. Chaddock's statement, the company must have assistance from the banks, but with this assistance he hoped to be able to settle within six months on the 50-cent basis and perhaps more.

"We cannot at this time make more than a general statement," said Mr. Chaddock. "We owe the growers about $125,000 of liabilities. The banks are our largest creditors, but they are secured. We owe small debts, which aggregate, with what we owe the growers, about $15,000."

Mr. Chaddock thought that the raisins which had been received during the past week and which were still on the platforms ought to be returned to the growers. He also urged that the laborers in the packinghouse be paid, the total amount due them being only $600. The creditors decided to pack a carload of raisins and ship it East to obtain money to pay the employes.

A committee of three, consisting of F. Lyman, A. C. Williams and Charles Sims, were selected by the creditors to investigate the affairs of the firm and report at a meeting to be held on Saturday at 10 o'clock. O. J. Woodward of the First National Bank was present and stated that if the company could make a satisfactory showing of its condition, $8000 or more would be advanced to carry it through.

The following deeds were filed with the county recorder on the evening before the announcement of the failure:

E. G. Chaddock to John L. Chaddock, lots 27, 28 and 29 in block 204 of the city of Fresno; $10.

E. G. Chaddock to Agnes B. Chaddock, lots 21 and 22 in block 190, and lots 24 and 25 in block 203, all in D. W. Parkhurst's addition to the city of Fresno; $3500.

E. G. Chaddock to Agnes B. Chaddock, lots 27, 28, 29 and 30 in block 226 of the city of Fresno; $200.

When asked about the deeds Mr. Chaddock stated that he had made the transfer over a year ago, but the recordation had been delayed. The grantees, his wife and son, in order to protect themselves had recorded the deeds.

## GOLDEN WEDDING

### Firman Church and Wife Celebrate Theirs.

### A Gathering of Members of the Family From Far and Near.

Firman Church, late district attorney of this county and ex-mayor of this city, had an interesting family gathering at his residence, O and Stanislaus streets, yesterday afternoon. The occasion was the celebration of the 50th anniversary of his wedding day.

Mr. Church is well known to be a man of quiet disposition and unostentatious habits, so that the usual fuss and display of a golden wedding were conspicuous by their absence.

The only departure from the routine appearance of the family home was in a very neat floral decoration, in every room of the house as well as on the dinner table.

Invitations to the dinner were limited to members of the family, and to a representative of this paper who is a friend of Mr. Church.

The party was made up as follows: Mrs. Sarah A. Fisher of Omaha, a daughter; Mrs. Addie Harding of Chicago, daughter; Jesse F. Church, son; Mrs. Jesse F. Church, daughter-in-law, and children, Lewis and Eveline; J. M. Collier, son-in-law, with his daughters Augusta and Dora; Moses J. Church, cousin, of Oakdale; ex-Judge George E. Church, cousin; Dr. W. B. Church (cousin) and wife, of Oakland; Mrs. G. A. Evarts, sister, and Mrs. Dakin, cousin, of Oakland.

The dinner was of the regular Thanksgiving style, with turkey and cranberry sauce as a piece-de-resistance, and plenty of good things for everybody. The cooking was exceptionally good, and reflects great credit on the friends who volunteered their services for this part of the celebration.

Some of the family had not met for many years, and the occasion was one for reviving many interesting recollections and associations. There were no set speeches, and "presents" were expressly interdicted.

The host and hostess were both under age when they united their fortunes fifty years ago, but they looked as happy a couple as could be found anywhere when seated side by side yesterday afternoon. Mr. Church was in good spirits and was congratulated by his relatives on the greatly improved state of his health.

## A WOMAN HELD UP

### Attempted Robbery Last Night.

### Mrs. Black Caught by the Hair By a Footpad—Help at Hand.

Mrs. Black, residing at the corner of Amador and H streets, had a thrilling experience last night with a footpad. About 8 o'clock, while on her way to a neighbor's, the incident occurred. While the members of her family were attending the show Mrs. Black remained at home, and shortly after the departure of the pleasure seekers she became timid from premonition of some evil. She tried to quiet herself and bravely remain at home, but finally decided to lock up the house and go to a neighbor's. Before leaving she locked her trunk and bureau drawers as a precaution, and then started to the house of a friend living in the next block.

Along that portion of H street large locust trees make it very dark on the sidewalk at night, so Mrs. Black took the middle of the road. She had gone about half of the distance of her short journey when some one stealthily approached her from the rear, grasped her hair with a firm grip. Before the assailant could place his hand over Mrs. Black's mouth she screamed at the top of her voice for help.

Fortunately assistance was near at hand and a man by the name of Olick who was only a few feet away, came to her rescue. Olick's prompt appearance on the scene put the unknown highwayman to hasty flight, in fact he had hardly time to introduce himself before being compelled to take his leave.

Mrs. Black is a middle-aged woman about 35 years of age, and she passed through the experience without becoming hysterical or without prostration resulting, although she was quite nervous after the occurrence. It is thought that the miscreant had watched Mrs. Black while she was locking up her trunk before leaving the house, and surmised that she took her valuables with her, and therefore attacked her on the street.

The man was large and wore a slouch hat, but owing to the darkness Mrs. Black could not see his face. Two suspicious characters were seen loitering aroundn in that part of town during the afternoon, and the officers have suspicions in regard to them. Officer Henry Russell responded to a telephone message shortly after the attempted robbery and investigated the case, but he could discover no clew.

## EUROPEAN FRUIT CROP

### Valuable Report of Consul Germain.

### Shortage in Prunes and Raisins.

### The Malaga District Particularly Affected by the Adverse Season.

In the Consular Reports for October there appears a valuable report on the European fruit crop outlook, made by Eugene Germain, consul at Zurich, Switzerland. The report, which is of great interest to California growers, is as follows:

"Through the courtesy of some of our consular officers in Germany, France, Italy, Austria-Hungary, and Spain, and also from other reliable sources, I have gathered some information regarding the outlook for the forthcoming European fruit crop. I will confine my report, however, to fruits which American fruit growers have to compete in the home as well as in the foreign market."

The months of March and April were exceptionally warm and fine throughout Europe, thus causing vegetation and trees to start earlier than usual. Then came May and the first part of June, bringing late frosts, rain and damp, cold weather. This materially injured the fruit blossoms. The predictions are that the fruit crop will be generally very small and the quality inferior. In central and northern Europe caterpillars have infested the apple and plum trees, and in the localities thus affected the apple crop is almost entirely lost. In Southern Spain an unusually dry season has prevailed, thus causing great damage to the raisin, olive, almond and walnut crops. Lack of moisture, together with a prevailing dry wind, will prevent raisins, grapes, olives and nuts from developing, so that the crops will be small and quality undesirable. In France the prune crop as well as the wine grapes have been injured by frosts. In the Grenoble district severe storms have injured walnuts, so that, all in all, the outlook this season is discouraging for European fruit growers.

"There will be a good chance to place American dried fruit, as well as green apples, in Europe this season, provided our growers will put up choice stock only. They must keep small, inferior fruits at home. Transportation and other charges being high, it will not pay to ship anything but the very best. Nothing smaller than 80s in French prunes will pay to ship to Europe, and all other dried fruits, as apricots, peaches and pears, must be of uniform size, bright, and packed in attractive manner.

"So much has already been said on this subject that I shall not reiterate, but simply summarize the situation as reported to me. The estimates at hand are about as follows: Walnuts, 50 per cent short of last crop; almonds, 25 per cent short of last crop; French prunes, 75 per cent short of last crop; apricots, peaches, raisins and wine grapes, 50 per cent short of last crop; olives, 33 per cent short of last crop, and in some localities they are an entire failure. Pears have done better and the crop in some localities will be fair; still there will be a good European market for choice American pears, both green and dried, if landed in good order for reshipment to the interior."

Regarding raisins Consul Germain has the following to say in a supplementary report:

"I am in receipt of a communication from Malaga, Spain, in which my correspondent writes as follows:

"'In reply to your inquiry of May 20th, which I should have answered ere this, I beg to inform you that at the beginning of the season the outlook for a bountiful crop of Malaga raisins was very favorable and a much heavier yield than that of last year was looked for. But the continued drought prevalent in the raisin growing districts of Spain, together with the exceedingly high and dry temperature, has injured the growth and development of the raisin berries. This district, in particular, is affected to such an extent that the output will only be equal to that of last year, namely, 650,000 boxes of ten kilograms (twenty-two pounds) net each, or 14,300,000 pounds.'

"From the above, it will be seen that while the quantity of Malaga raisins will equal that of last season, fancy grades will be scarce in Spain, and our California raisin growers will have a good opportunity to sell their fancy clusters and first class London layers at advantageous figures in our home markets."

### The Boss.

In a harsh, resonant voice the boss was shouting his orders over our heads to the furthermost portion of the works. His short, thickset, muscular figure seemed rooted to the masonry on which he stood. The mingled shrewdness and brute strength of his hard face marked him as a product of natural selection for the place that he filled. His restless gray eyes were everywhere at once, and his whole personality was tense with a compelling physical energy. If the work slackened in any portion of the ruins, his voice took on a vibrant quality as he raised it to the shout of "Now, boys, at it there!" And then a lash of stinging oaths. You could feel a quickening of muscular force among the men, like the show of eager industry in a section of a schoolroom that has fallen suddenly under the master's questioning eye. —"The Workers," by Walter A. Wyckoff, in Scribner's.

This is bad weather for raisin bears. It makes them cough up that extra half cent.

The city trustees should take up the matter of securing a safe crossing over the Southern Pacific tracks. It is required both for the safety and convenience of the public.

Money may not rule the United States senate, but the appointment by Governor McLauren of Mississippi of Hernando de Soto Money to fill a vacancy in that body is suggestive. It is evident that Money will talk.

The Hanford *Democrat* says that Fresno needs a wave of moral reform. That is true of most places, but it is rather queer that the suggestion should come from a place where Mrs. Sarah Pratt Carr resides and forms her ideas of California morality.

Governor Budd is now subjecting the Yosemite commission to his pot-hooking methods. General John F. Sheehan, the secretary, is to make room for J. J. Lerman, a Democrat. The state government would be in a pretty condition after four years more of Budd. It will take eight years of first-class Republican management to undo the evils already brought upon the state by Budd's peanut politics.

It is to be hoped that the Hundred Thousand Club will co-operate with the Chamber of Commerce in the matter of providing this city with a public park. We think, however, that the matter of building a hall for expositions and conventions is of more immediate importance. There is nothing, however, to prevent these public bodies from taking up both projects. Both are meritorious and both will greatly benefit the city, though each in a different way.

It is more than a year before the people of this state will cast their ballots and elect a successor to Governor Budd, but the early candidates are already springing up like mushrooms after a heavy rain and it is a modest community indeed which is not nursing a boom for some aspiring statesman. The San Joaquin valley is the only portion of the state in which the great men are too busy with their own affairs to care to run for office.

## INJURIOUS TO LABOR.

The Republican believes that organized labor is a necessity of the times and industrial conditions, but it nevertheless feels very certain that the best interests of labor are liable to injury by unjust and tyrannical use of the power acquired through organization. The strength of organized labor lies largely in its ability to acquire and retain the sympathy and support of the people at large. The moral force of such an influence cannot be easily overestimated.

A case in point is a boycott which certain labor unions have declared against a Los Angeles brewery. If the facts are fairly stated the action is not justified and will be more likely to injure the cause of labor than the object of attack.

The ground for the boycott as stated is that the employes of the brewery decline to become members of the brewers' union. They get higher wages than the union scale, enjoy all the privileges conceded to members of the union, and consequently have decided that as they are maintaining all their rights and upholding the prices of labor there is no necessity for an alliance with any organization.

There may be a difference of opinion as to whether the unions have a grievance against these workmen, but there can hardly be a reasonable difference regarding the insufficiency of the ground for an attack upon the business of their employers. There is no such ground. The brewers are willing that their workmen shall join a union; they merely decline to force them to take such action.

This attitude on the part of the employers cannot be successfully attacked. It is not only reasonable, but it is commendable. They pay full wages and give their employes the liberty to join labor unions or not, as they see fit. That is the spirit of genuine Americanism, and the attempt to break it down is as much opposed to good public policy as the arrogant course pursued by the capitalistic combines and trusts. It not only undertakes to destroy the individual liberty of the workmen, but it would make the employer the instrument to perform the act of tyranny.

If the facts regarding the Los Angeles boycott are correctly reported, the cause of organized labor is being injured by its injudicious exponents.

Ex-Governor Boies writes to the Des Moines *Leader* that the Chicago platform has had its day in court and intimates that it is not necessary to adhere to it forever to be loyal. He says:

Must Democrats, to be loyal, adhere to it forever? The objection is at variance with the whole theory of our form of government. If valid elections would settle nothing, majorities would cease to rule, and when a political issue was once joined the warfare over it would go on until one or the other of the parties to it was totally annihilated.

Doubtless many Democrats are of the same mind as Mr. Boies, but they have not the courage to publicly express their views.

A cable dispatch from Madrid says that the jailers of the Casa de Recogidas, whence Miss Cisneros escaped, will be severely punished. What will the yellow journal combination do for these poor devils whom it got into such a bad fix? Nothing, of course. There is something to be gained in helping a pretty Cuban girl to break jail—a few thousand or more readers and the applause of a few hundred imbeciles—but there is nothing in extending aid to the Spanish jailers upon whom the yellow journals' crime has brought misfortune.

## THE YELLOW SCOURGE.

The Republican remarked the other day that the Stockton *Mail* is not a yellow newspaper. The basis of the remark was the fact that the *Mail* does not devote a large share of its space to the tempestuous tooting of its own horn, and that sufficiently justified the conclusion, for self-glorification is the stock in trade of the saffron gang. And the *Mail* is not only free from the yellow scourge, but it is doing its part in the necessary work of protecting the public from its ravages. This is what the Stockton paper has to say concerning the recent jail-breaking expedition of the New York *Journal*:

If a Spanish or an Italian or an English newspaper should organize an expedition to invade our territory and snatch by stealthy violence from a public prison an inmate held for trial under our laws, we would sink our last ship, spend our last dollar and lose our last man before we would cease the quest for vengeance for the insupportable insult to the nation and to the flag. And as we would demand that Spain should do unto us, so it behooves us, in fairness and decency, as a justice-loving people, to do unto her in this case.

We think that the men who offered Spain this insult and violence should be punished with unsparing severity.

This is stating the case strongly, but not more strongly than it justifies. This country would never submit to such outrageous treatment by the citizens of any other nation, and if this country escapes the responsibility for the act of its newspaper banditti, it will be for no other reason than the inability of the assaulted nation to defend itself.

There is a dignified and decent way for a nation to intervene when the interests of humanity demand such action, but to be put upon the defensive in a case of this kind would be humiliating indeed. The government would be compelled to take the position either of an apologist or a bully, and in neither role would any credit be reflected upon the nation.

Yellow journalism is bad enough in itself, but when its unparalleled impudence places the government in a compromising position, it is time to call a halt. These yellow jail breakers should suffer the penalty of their criminal folly.

The Oakland *Enquirer*, usually well informed, says that the New York municipal election has given birth to a new set of political names, the most conspicuous of which are the "Googoos" and the "Garoos." This is an error. Both the Googoos and the Garoos were very much in evidence during last year's campaign.

## RANDOM REMARKS.

Even a fight between rival piano dealers is inharmonious.

Dyea is now Taiia, according to the United States "board of geographical names." Why didn't the board change it to Die-there?

An editorial squib is going the rounds asking for a definition of a "model husband." The "model wife" is best fitted to give the answer. Let her take the floor.

It is nearly two weeks since General Miles returned from his European tour and he hasn't said a foolish thing yet. Is the General ill, or has he been stricken dumb?

A monument has been unveiled at Woerrishofen, Germany, to the memory of Sebastian Kneipp, the founder of the water cure treatment. What does it consist of—a fountain?

Now comes Charles Frohman and adds his testimony to that of others in regard to San Francisco being a "jay" town. Please stop it, gentlemen; we all know that San Francisco is jay.

What's in a name, indeed? There's a social organization in Oakland named "The Merry Wives," yet if a fellow were to tell one of the members' husband that his wife was merry, he'd be likely to measure his length on the floor.

Dr. Evans, the American dentist who has spent most of his life in Paris, is said to have a fortune of $30,000,000. Of course as soon as the news was published all the funny men immediately conjectured that he must have a strong pull.

Ex-Collector Wellborn of San Francisco, who is on trial for embezzlement, put a lot of witnesses on the stand to testify to his good character. Judging from their testimony they fully came up to his expectations, and now that it has been established that he is a man of high character let the jury find him guilty and the judge give him twice as heavy a sentence as he would a man of bad character who had been guilty of the same offense.

I referred to Mrs. L. Clare Davis as "Major" the other day, and now she comes back at me with "Sister" Mappes. 'Tis well, I will be a sister to you, Clare. If you don't like "major," I do like "sister;" it is so sweet and tender. I have always wished to be a sister—that is, a woman—but Providence and I had a difference of opinion on this point and Providence got the best of it. Nevertheless if I can't be the genuine article I'm willing to bear the name of it. "Sister" is certainly preferable to "Bob," "Rob" or "Bobby," etc.

I thought it would come. The other day while suffering from mental aberration I attributed to Socrates that very peculiar proceeding of hunting for an honest man with a lantern in broad daylight. I knew it was that old dog Diogenes who had done this as well as I know that I was alive, nevertheless I said it was Socrates, and when I read the proof I failed to change the name to Diogenes. The absurd blunder can be likened to nothing better than the looking for one's spectacles when one has them on one's nose. But here comes the *Expositor's* associate editor, Mrs. Davis, and appraises me of my error, charitably adding that after all it was only a *lapsus calami* on my part. However, that is not the only correction I have received.

"Say, old fellah," said a college bred young man to me, looking at me with profound pity, liberally mixed with contempt, "pahdon me, it wasn't Socrates that looked for an honest man with a lantern, but Demosthenes!"

## ESTEEMED CONTEMPORARIES

Hanford *Sentinel*: The Tulare *Citizen* declares that the creed of the Populist party is the "Golden Rule." There it goes again. No wonder the price of silver is declining.

Alameda *Argus*: Mrs. Phebe Hearst is setting an example by her philanthropic activities that other rich people of San Francisco might emulate, with the advantage of laying up treasures in heaven for themselves and doing mankind in the abstract great good.

Tulare *Register*: Mr. Tesla, the young wonder who is supposed to eat, sleep and walk amidst electrical miracles, may be relied upon to furnish matter for discussion in the scientific rot columns of daily papers, but that appears to end it. His discoveries, said to pass the dreams of Edison, exist in his mind if they have any existence. But what he is supposed to have discovered pales into insignificance when compared with what he is about to discover. If this man Tesla is not a scientific and electrical fake there is a good deal written about him by people who seemingly want to write without the mental exertion of hunting around on the lee side of subjects of interest to a few readers.

Eureka *Standard*: A powerful triumvirate of millionaire Democrats has been formed in Ohio for the double purpose of defeating Hanna and his Democratic opponent, John R. McLean. Calvin S. Brice, Tom Johnson and Paul J. Sorg, each a millionaire and also a shrewd politician, have formed a combination to capture the Ohio state legislature and turn down both McLean and Hanna. It is late in the campaign and they have done their work secretly until now and with much adroitness. If they succeed one of the triumvirate may grace the seat recently vacated by John Sherman. It is a fact that Hanna and his friends are somewhat alarmed at the prospects. Either of these men can command as much money as Hanna or McLean, and their purses are wide open and doing duty in every doubtful county. Will it come to this, that the contest for senatorial honors in the future will be a battle royal between rival millionaires, with ability, honesty and manhood all left out of the race?

The *Mail of Woodland*: In one short year the business tide in the affairs of men has demonstrated that what seemed then to so many a fact as true as the law of gravitation, is now a fallacy, a delusion, as unreal as the veriest dream. Everybody knows now that the prices of the articles of commerce, which gold is used to buy is, with few, if any exceptions, from 10 per cent to 100 per cent dearer than in the Bryan campaign. If Mr. Bryan is permitted by his groomers to make any more speeches, his first one should be to explain why the conspiracy value of gold a year ago depressed prices and oppressed the poor, and now the prices of other things are oppressing gold and the conspirators. If gold had the business world by the throat a year ago, where has the doubled quantity come from to make it let go—the only thing to make it let go under the Bryan theory. The quantity of gold in the world may have something to do with values of marketable products, but gold is not the financial moon, having its own way in governing the ebb and flow of prices, as the real moon does the rise and fall of ocean tide.

Hanford *Sentinel*: The farmers must learn that an organization of their own must not monkey with politics. The minute it does its goose is cooked. There is where it differs and has an advantage over the press. A newspaper must be one thing or the other. It must be a Republican, or, in these days of fusion and fizzle, a Popodemocrat. But a farmer need not be either until he casts his ballot. The moment a farmers' club becomes political its chicken is fricasseed. It has passed into the relics of the "dim and disgusted past," as Bill Nye would say, and there is nobody that can be of service to it except the undertaker. While the farmers individually are capable of studying economy and other principles of government, the moment they ally themselves with any of the political schemes that are hatched in the closets of poorly paid attorneys and defunct office seekers of any political organization, they have authorized the poet to compose a touching epitaph for their tombstone. Such an epitaph will read something like this:

Here lies old Farmer Jones—
He joined a club and voted.
A politician got his car,
To the graveyard he was toted.
He thought most of his farm,
He gave it all to the schemer;
His bones are lying here,
He was a visionary dreamer.

Now, that there is an opportunity to form a club on a strictly business basis, the farmers should get into it in business shape, like other interests, and make it win. The *Sentinel* is with them.

## MADERA MISCELLANY.

### Heavy Rainfall, but Damage to Raisins Slight.

J. E. Toser of Madera, who during the past summer has been running a sawmill at Truckee in this state, returned Monday evening from that place and will pass the winter here.

R. E. Perkins and J. Turnbaugh, formerly residents of Madera, now residing at Salinas, Monterey county, arrived in town during the early part of this week and will remain a few days looking after business interests here.

Judge W. M. Conley left last Sunday for Salinas where he is called to sit in Judge Dorn's court during the trial of certain cases at that place. The Judge will be absent until about the twenty-fifth of this month.

Ed Young, formerly a resident of Madera and an employe of the Flume and Trading Company, came over from Hanford last Monday, returning to the latter place on Tuesday.

It has been raining almost continuously today. The rainfall, however, has been light and will in all probability, do very little damage to the raisins.

The new brick planing mill which has been in course of erection during the past two and a half months, is almost completed. Nearly, if not quite all, of the machinery has been put in place, and in a few days everything will be ready to start the mill going.

The trial of H. B. Flowers on a charge of disturbing the peace, preferred against him by W. H. Wells, resulted yesterday in an acquittal. No evidence was offered by the people except that of the prosecuting witness and as this evidence was flatly contradicted by the defendant, Flowers, and as he was corroborated in some of the material points of his testimony by witnesses who saw a part of the difficulty, the case of the people had of necessity to fall to the ground. It was generally characterized as being about the flimsiest and most deliberated case that ever wobbled into a courtroom. There was absolutely nothing in it and the twenty-four men who were summoned from their labors to appear and act as jurymen no doubt went home to their neglected work with a still more exalted opinion of that science, the law, which someone, who evidently never practiced in a justice's court, has said "is the perfection of human wisdom and whose cost is in the bosom of God."

R. L. Bennett and wife went to Fresno this morning on the 10 o'clock flyer to remain during the day. A. R. Edam.

# DAIRYMEN'S PETITION.

## Denied by the Board of Supervisors.

### Garrett and Sayre Have a Warm Tilt.

### All Because of the Form of Presenting Bills to the County.

The supervisors yesterday took up the hearing of the petition of the dairymen to have the small milk dealers, those that peddle a part of the milk of the family cow among neighbors in this city, placed under a system of regulations and subjected to inspection by the county officer the same as the larger dealers must submit to.

H. G. Persons appeared before the supervisors as spokesman for the milkmen. He argued at length along the lines set forth in the petition, contending that the small dealers had an unfair advantage in the competition. Not being subjected to inspection, they could place an inferior quality of milk on the market and successfully cut the price.

The supervisors did not look with favor upon the appeal of the dairymen, however. Some of the milkmen had even gone so far, it seems, as to urge the board to pass an ordinance prohibiting families from giving away milk. The petition was denied.

The bill of D. H. Williams for putting awnings over windows in the court house was allowed. The claim came up last month, but as the supervisors thought it too high they postponed action on it till the present session. The bill was for $63.

Immediately after the convening of the board in the afternoon Chairman Sayre and Supervisor Garrett had a tilt which for a few minutes was quite acrimonious. The chairman was examining bills for road work and signing them, when he came across some claims from the First Supervisor district.

"These bills cannot be allowed till next month," said Mr. Sayre.

Mr. Garrett wanted to know why, and the chairman explained that the claims were not sworn to as required by law. Instead of each laborer making oath to his claim for wages, the foreman presented a bill for all of them in one.

"The law is positive," explained Chairman Sayre, "that every man who has a claim against the county must swear to it before it can be paid. How do we know whether this foreman paid the men or not? Before I will sign the order for a warrant I want to see the vouchers that they have been paid by the overseer."

Mr. Garrett replied that the men were working every day and did not have time to come to town to go through the formality of filing their claims. Furthermore, the supervisor asserted, the members of the board all knew that the foreman was not able to pay his employes until he obtained his money from the county. As an accommodation, and a convenience to the foreman, he had allowed the foreman to present all the claims in one bill.

"I'm going to abide by the law," announced Chairman Sayre, "and it must be followed. I will not sign an order till the requirements of the law are carried out. This manner of presenting claims has been going on for some time, and it must be stopped," said the chairman sharply.

Mr. Garrett replied with spirit that it was not a law referred to by the chairman, but a rule of the board. Mr. Sayre asserted that the state law was plain in the matter.

"I should like to see it," answered Garrett.

"Your district is the only one in which the law is not being followed," retorted the chairman.

"Didn't you allow some claims just in this way in your district last month?" Mr. Garrett flung back at Mr. Sayre.

"No, sir, I did not; look at the bills," replied Mr. Sayre warmly.

"Let me see his bills, Mr. Clerk," answered Mr. Garrett promptly, but Clerk Johnson said that they were in the auditor's office.

"In signing vouchers that they had been paid the working men would subscribe their names to a lie, because the foreman can't pay them till he gets the money from the county," continued Mr. Garrett.

"No one needs to tell a lie," replied the chairman. "Any man who works for the county and will not present his bill in proper shape is not entitled to work for it."

Here the discussion stopped. No one else said a word. Business proceeded and in a few minutes Messrs. Sayre and Garrett were again on amicable terms.

At the November session of the board bids for furnishing supplies to the hospital, jail and indigents must be advertised for. Yesterday Steward Burke was before the supervisors, and he was instructed to prepare a new list of supplies. He is to make up a list of such articles as are actually used. Heretofore many things have been included that were never used, and the bidders would offer to sell these at prices far below cost. In averaging these would be counted in and would lower the bid, while the goods that are used most would probably be fixed at high prices.

In order to do away with the unfair system of bidding the board will advertise for such articles only as are used.

Mrs. Annie Black, daughter of Mrs. Vargas, was allowed $12.50 a month. She is sick and unable to maintain herself and two children.

Sophia Anderson of Wildflower applied to be placed on the indigent list. She is suffering from rheumatism and has four small children to care for. She was allowed $10 a month.

### "A KENTUCKY GIRL" TONIGHT.

Shaw's Clever Company Continues to Please.

Tonight the Shaw Company will appear in "The Kentucky Girl," their most popular play. Mr. Shaw regards this as his mascot play, and it is assured by the large sale at the Barton box office that standing room will be sold tonight. At the matinee Saturday "Rip Van Winkle" will be given.

"MY FRIEND FROM INDIA?"

The latest and most suggestively attractive as well as the most successful comedy of the year is "My Friend From India," by H. A. Du Souchet, which will be presented by the Smyth & Rice Co., at the Barton opera house next Monday night. This reigning New York comedy sensation is founded upon Theosophy and all the fun revolves around the various amusing situations and humorous phrases arising from the effects of a Kansas city pork-packer to break into New York society. To accomplish this he seizes upon an unfortunate barber who gets into the house through a freak of a scapegrace son and boons him as a member of the learned order of the yellow robe of India. The complications involve the whole family and everybody else and afford occasion for uproarious and unbroken laughter from start to finish. It is said that the Smyth & Rice Comedy Co. contains some of the best comedy talent now on the American stage, among whom are Frederic Bond, John F. Ward, John B. Maher, Joseph Hall, Joseph Adelman, Frank Parry, Jack Finn, Helen Reimer, Nita Allen, Clare Hathaway, Neta Maynard, Mrs. Adelman and the clever May Vokes.

### THE SHAW COMPANY.

"Our Bachelors" Given at the Barton Last Night.

Again the Shaw Company played to a large audience at the Barton opera house last night, and the funny farce comedy, "Our Bachelors," kept the spectators convulsed with laughter from beginning to end.

Sam T. Shaw, although farce comedy is not exactly in his line, made a very amusing Prof. Bangle. M. J. Hooley as Judge Jowler, whose very teeth were set on edge at the thought of anyone being so foolish as to get married, gave an excellent portrayal of the part and it showed this clever performer off to better advantage than anything else he has done during the week. Marie Howe as Mrs. Courtney, Birdie De Vaull as Clara Gray, Albert Watson as Muldoon and Nellie Main Shaw as Bella were small but well sustained characters.

Jennie Kelton in her negro dancing executed some difficult steps that pleased the audience greatly, and the pretty and graceful dancer was applauded to the echo. She was followed by the De Vaulls, William and Birdie, in comical songs and plantation dancing that also made quite a hit.

Tonight the thrilling melo-drama, "A Kentucky Girl," will be presented.

STEELE PENN.

### BASEBALL ITEMS.

Additional Seating Capacity at the Grounds—Sunday's Game.

The railroads are making great efforts to bring large crowds of people to Fresno to witness the great game of baseball at Athletic park next Sunday. Merced, Visalia, Hanford and Selma will be particularly well represented, whilst Clovis will send a large delegation of rooters, headed by Mayor Ferguson.

The Alerts will receive a welcome when they appear on the grounds that will surprise them. Every small boy in the town will have his rooting voice with him, and the larger cranks will yell as they never did before.

The seating capacity at the park will be greatly enlarged for the game by the addition of extra seats.

The announcement that the Eastern teams will play here with the REPUBLICANS has aroused great enthusiasm among the patrons of baseball. The members of the local team are all resting up, and are coming around into good playing condition. McCarthy is improving very fast, and will be in good condition for the game. Should the weather be pleasant today, the boys will drive down to Selma and engage in a practice game with the ball club of that town. The people of Selma are very proud of the REPUBLICANS, and intend to support them both financially and by attending the games here.

# J. R. HITE WEDS

## He Wins a Bride in San Francisco.

### The Millionaire Steals a March On His Relatives, Who Objected.

John R. Hite, a well-known pioneer whose home is at Wheatville in the western part of this county, though 60 years of age is not too old to become a benedict. He has obtained a license in Oakland to marry Mrs. Cecilia Nougus, but it has not been ascertained here yet if the wedding has taken place.

According to the *Chronicle*, the quiet way in which Mr. Hite secured the license seems to indicate that he feared opposition from his relatives.

No friends of either of the contracting parties were warned of the step, which seems to have been taken precipitately. Hite is reputed a millionaire. Mrs. Nougus boasts less than two-score summers. While his home was in Fresno county, Hite made San Francisco his place of residence, and there it was that he met and fell under Mrs. Nougus' charms. The aged bridegroom maintained quarters in the Carlton house, while Mrs. Nougus lived at 212 Turk street, supporting herself by nursing. Of late they have been much together, and a week ago Mrs. Nougus visited Fresno, so that the outcome of their acquaintance is not altogether a surprise to their friends. Hite's brothers and sisters, who considered him safely past the age of matrimony, are not pleased, however, with the latest departure.

Hite was the discoverer and for many years the owner of the celebrated Hite mine of Mariposa, which he located under the guidance of a young Indian woman whom he had befriended. He took more than $1,000,000 out of the mine and invested in San Francisco real estate. He lived for many years in an old business house on Montgomery street where the Mills building now stands. His eccentricities when in Fresno county were common gossip, and in spite of age and wealth, he would frequently strip off his coat and work with his hired hands in the field.

### VIOLATED REVENUE LAWS.

Two Saloon Keepers From Firebaugh Under Arrest.

Bart Alford returned from Firebaugh yesterday morning with two prisoners charged with violating the United States revenue laws. A. Ramacciotti and P. C. Di Sandro, saloon keepers at Firebaugh, are the men under arrest and their offense consisted of not promptly paying the quarterly license levied by the government. They were taken before Commissioner Dante Prince and admitted to bail in the sum of $100 each.

The warrants against the men were issued on the 7th inst. and they paid their licenses on the 8th, so it is likely they will be punished with a nominal fine if convicted. Their examination will take place next Wednesday at 11 o'clock.

On Saturday Bart Alford captured John Wilson, charged with cutting and removing timber from government land. The warrant on which Wilson was arrested was issued in February, 1896. His examination before Commissioner Prince will take place next Thursday at 11 o'clock. Wilson was admitted to bail in the sum of $100.

# NELLIE NORMAN IS DEAD

## She Committed Suicide in St. Louis.

### Was the Wife of Matteo Mitrovich.

### The Unfortunate Woman Formerly Lived in Fresno. Her Father Here.

Nellie Norman, formerly of Fresno, committed suicide in St. Louis last Tuesday. She was the daughter of G. W. Norman of this city, and the wife of Matt Mitrovich, the well known caterer, who is now connected with the Universal restaurant on I street.

According to the dispatches the woman, who was only 22 years of age, became despondent after a misspent life and ended her existence by swallowing a big dose of carbolic acid. She appeared at a private residence and asked permission to retire to the bath room. The request was granted and ten minutes later she was found in a dying condition.

The dispatches give what is believed to be a much garbled account of the woman's history, and at first stated that she was from Pasadena and that she had eloped with Mitrovich when she married him. Indeed the reports were so much at variance with the facts that the father doubted if it was his daughter who was dead. But last night he received a telegram stating that it was she.

Miss Norman was married in this city six years ago to Mr. Mitrovich, who was then conducting the Maison Mitrovich. The bride was only 16 years of age. Later the restaurant man moved to Stockton, and there, about three years ago, he and his wife separated, but no steps were taken to secure a divorce. She then went East, assuming her maiden name. As a girl she was very pretty, but the reports in the dispatches that she had posed for sculptors are in all likelihood erroneous, for she was slender and of small stature.

Mr. Norman was in communication with his daughter, and he received the last letter on Monday evening. She was ill and at a hospital in St. Louis. She wanted to return to Fresno and asked her father to send her money for a railroad ticket, which he had intended to do. A few weeks ago Mr. Mitrovich also received a letter from her.

### WALTER FURNISH IN TROUBLE

He is Charged With Securing Money by False Pretenses.

Walter Furnish is again in trouble and a warrant was issued for his arrest yesterday for obtaining money by fraudulent means. It seems from his actions as if the young man is thoroughly determined to ruin his reputation and alienate from him the good will of his former friends and to further add to the mortification of his relatives.

Yesterday C. W. Bennett, an expressman, swore to a complaint before Justice Austin charging Furnish with securing money by fraudulent representations. The complaint alleges that on the 11th day of October Furnish sold to Bennett fourteen sacks of barley for $6. Furnish claimed that the barley had been paid to him for services rendered, but later developments showed that such was not the case, as he had received the barley from the Sperry Flour Company on false pretenses. The Sperry Company let Furnish have the barley, as he told them that his father had ordered it. Mr. Furnish, Sr., did not order the barley or know anything about the transaction until informed of his son's latest escapade. The barley was recovered from Bennett and as a result he secured a warrant for young Furnish's arrest.

Furnish, who was in the county jail on a charge of being drunk, was seen yesterday evening by a reporter and asked if he had any defense for his actions in the barley transaction. He said he had secured the barley, but did not care to make a statement.

Only a Slight Difficulty.

From the Bakersfield Echo.

There was a slight difficulty on the upper end of Nineteenth street Sunday evening, in which two or three men were slightly used up. It is said that one man was struck on the head with a rock or club and another one cut in the back with a knife. The various wounds were dressed at the hospital, and on Monday the men were arrested, two of them on charges of assault with a deadly weapon and two for disturbing the peace. One of them secured his release on bonds.

# BATCH OF COMPLIMENTS

## Paid the "Republican" on Its Souvenir.

### Esteemed Contemporaries Express Their Views.

### An Artistic Production That Cannot Fail to Benefit Fresno.

Following are the opinions of some of the REPUBLICAN'S contemporaries on the souvenir "Imperial Fresno," recently issued by this paper.

**Ornament to a Parlor.**
From the Reedley Exponent.

The FRESNO REPUBLICAN has issued a beautifully bound and printed souvenir book descriptive of the resources, industry and scenery of Fresno county. The book contains much valuable information and would be an ornament to any parlor.

**Splendid Work of Reference.**
From the San Francisco Report.

The FRESNO REPUBLICAN has issued an attractive volume entitled "Imperial Fresno." The resources, industries and scenery of that enterprising city are illustrated and described at length. The book is a credit to the REPUBLICAN and a splendid work of reference.

**Very Attractive.**
From the Napa Register.

"Imperial Fresno," a souvenir of the FRESNO REPUBLICAN, is before us. It is a 144-page volume, neatly printed and elegantly illustrated, and it advertises in the most attractive form possible the resources, industries and scenery of the city and county in which it is published.

**An Excellent Advertisement.**
From the San Francisco Call.

In honor of its twenty-first birthday, the FRESNO REPUBLICAN has issued a souvenir entitled "Imperial Fresno." It describes the varied resources of that city and county, and the illustrations are many and beautiful. The work constitutes an excellent advertisement for that section of California.

**Finest Ever Issued.**
From the Hanford Democrat.

"Imperial Fresno," a souvenir edition just issued by the FRESNO REPUBLICAN, is the finest work of the kind ever issued in the state. The printing was all done in Fresno, by Fresno workmen, and is a credit to the typographical fraternity of that city. The book is readable and brim full of information in regard to Fresno county.

**Right to Feel Proud.**
From the Merced Sun.

The FRESNO REPUBLICAN was twenty-one years old the other day, and in honor of the event issued a beautifully bound and printed souvenir book descriptive of the resources, industries and scenery of Fresno county. The book is the neatest thing in the souvenir line that we have seen for many a day, and is something over which the REPUBLICAN may well feel "puffed up."

**Imperial Illustrations.**
From the Kern County Californian.

"Imperial Fresno," a souvenir of the REPUBLICAN, an imperial issue, beautiful, as a product of the printer's art, and a fitting pictorial testimonial of Fresno's varied values and charms, has just been issued. As to its worth as regards written description, more time is required for examination to form judgment, for it is a book to be read; but the illustrations alone make it worthy of its title.

**The Neatest Yet.**
From the Madera Tribune.

The *Tribune* acknowledges the receipt of one of the FRESNO REPUBLICAN souvenirs. It is the neatest work of its description we have seen and is very valuable as an advertisement of the resources of Fresno county, containing illustrations and descriptive matter of business enterprises and ranches in Fresno and adjoining counties and views of Fresno's mountain scenery. It will ornament any library.

**An Enterprising Journal.**
From the Selma Irrigator.

We are in receipt of a copy of the Fresno County Souvenir recently issued by the FRESNO REPUBLICAN, and take pleasure in expressing our admiration for the beauty of the scenes therein contained and the excellence of the workmanship. THE REPUBLICAN may well feel pleased with the result of its labors, and the people of Fresno county should be proud of so enterprising a journal.

**An Anniversary Edition.**
From the Alameda Encinal.

The first number of the FRESNO REPUBLICAN was issued on the 23d day of September, 1876, or twenty-one years ago on the 23d of last month. In honor of this event—the attainment of this paper's majority—it has, with the liberal assistance and patronage of many enterprising citizens, issued a beautifully illustrated souvenir of the county entitled "Imperial Fresno." This work is now completed and ready to be put to the use for which it is intended.

**Fresno County Lastingly Benefited.**
From the Kern County Echo.

It seems a little like former times to have a souvenir edition of a paper or a booklet from the country press drop in with the mail, but "Imperial Fresno," a recent production of the REPUBLICAN, is far and away the most elegant thing of the kind we have witnessed for years. It is substantial in point of facts, too, and carries a story of rural life and industry that is pleasing indeed. THE REPUBLICAN has done itself proud, and conferred a lasting benefit on Fresno county.

**Full of Valuable Information.**
From the Merced Star.

We are in receipt of a souvenir of Fresno county issued by the FRESNO REPUBLICAN, "Imperial Fresno" is a beautiful specimen of the printers' art, and a credit to the taste and abilities of the publishers. It is crowded with elegant photogravures of scenes and buildings of Fresno county, and the letter press is a compendium of valuable information regarding the growth, resources and possibilities of Fresno county.

**A Successful Effort.**
From the Tulare Register.

The FRESNO REPUBLICAN has turned out a handsome souvenir of over 140 pages descriptive of the resources, industries and scenery of Fresno county. It is the neatest work of the kind which has reached this office. Moderately written, well printed and beautifully illustrated it forms a creditable addition to any library. The *Register* extends congratulations to the REPUBLICAN upon the success of its effort.

**Send It East.**
From the Sanger Herald.

We have received a copy of "Imperial Fresno," a handsome illustrated booklet of about 150 pages descriptive of Fresno county, issued recently from the office of the FRESNO REPUBLICAN. A few pages are devoted to a nice write-up of Sanger and vicinity, the illustrations including a view of our public school, Kutner & Co.'s store and the Balfour & Fortune vineyard. This beautiful work of art should find a place in every home in this county, and all who can afford it should have a copy mailed to their friends in the East.

**Every Page a Gem.**
From the Visalia Times.

By far the handsomest souvenir ever issued in the San Joaquin valley, and we might say the state, now lies on our table, sent with the compliments of the FRESNO REPUBLICAN. It is entitled "Imperial Fresno; resources, industries and scenery; illustrated and described." This souvenir is truly an imperial publication. It has 140 large pages and every page a gem. Each industry and resource of which Fresno county is justly proud and every important building and mountain scene is described and pictured there. Not a family in the county should be without a copy of such a book.

**A Work of Art.**
From the San Francisco Bulletin.

The FRESNO REPUBLICAN has issued a souvenir of Fresno county which is of interest as a work of art as well as a source of information regarding the resources of the town and county. The souvenir is in the form of a book, about ten inches in length by eight in width, and is filled with half-tone illustrations of beautiful residences, vineyards and other attractive scenes with which the county abounds. The book also contains 144 pages of reading matter which is devoted for the most part to descriptions of the vicinity of Fresno and which is a capital advertisement for the county. The title of the souvenir is "Imperial Fresno."

**A Perfect Production.**
From the San Jose Mercury.

The *Mercury* congratulates the FRESNO REPUBLICAN and the residents of that county, all of whom will be benefited by that paper's enterprise, upon "Imperial Fresno," a souvenir of the REPUBLICAN, describing and illustrating the resources, industry and scenery of Fresno county. This magnificent work, with its 144 pages and couple of hundred half-tone illustrations, printed on heavy book paper and bound in leatherette, is a perfect production, one that will compel attention wherever it goes. "Imperial Fresno" cannot fail to advertise Fresno county as it has never been advertised before, and the citizens of that county should be proud of the REPUBLICAN'S enterprise.

**One of the Best.**
From the San Francisco Examiner.

The FRESNO REPUBLICAN has issued a large souvenir book called "Imperial Fresno." It describes the resources, industries and scenery of Fresno county, and is intended primarily to advertise the county and attract immigration. Incidentally, however, the REPUBLICAN has produced a typographical work of art. The book has more than 140 pages, and is filled with very handsome pictures of vineyards, orchards, residences, commercial and public buildings, churches and many views of mountain and valley scenery. The text sets forth the advantages of the county without exaggeration, and seems to be complete. Altogether the book is something in which the REPUBLICAN may properly take a good deal of pride, for it is one of the best specimens of its kind that has been put forth in California.

**Worth Thousands to Fresno.**
From the Madera Mercury.

The FRESNO REPUBLICAN has issued a souvenir volume of Fresno county entitled "Imperial Fresno," a copy of which the *Mercury* acknowledges the receipt of. The volume excels anything in the way of newspaper souvenirs that has ever come to our notice. It is a handsomely bound book of 144 pages, printed on heavily glazed paper and beautifully illustrated with half tone engravings. It is a souvenir of plain facts and truths and is not in the least overdone, as is the case in most instances of the kind. "Imperial Fresno" is not only a well written work on the resources of Fresno county, but it is a gem typographically, and the REPUBLICAN is to be congratulated for the enterprise it has shown by so beautifully and effectively advertising Fresno county. Such a souvenir judiciously distributed would be worth thousands of dollars to any county.

# CHAMBER OF COMMERCE

## First Meeting After the Summer.

### Memorial to the Late Supervisor Smith.

### The Executive Committee Considering the Establishment of a Park.

The Chamber of Commerce held its first meeting after the summer season yesterday afternoon at its rooms on I street. Owing to the rain the attendance was not as large as it would otherwise have been, and not as many country members were present as had been expected.

President Louis Gundelfinger occupied the chair, and while the session was brief a good beginning was made for the winter's work.

The executive committee will meet either this afternoon or tomorrow.

The first business before the chamber was the resignation of Arthur R. Briggs from the organization. Mr. Briggs' retirement is regretted by the members. It was due to the removal of the gentleman from the city. On motion of John Reichman, seconded by Colonel Trevelyan, Mr. Briggs was elected an honorary member of the Chamber of Commerce.

The meeting was the first the chamber held since the death of A. E. Smith, and the following memorial in honor of the late supervisor was adopted:

"Again has the grim messenger invaded our ranks and taken from our midst one of our most esteemed fellow citizens in the full vigor of health and usefulness. Death, at any time, is an unwelcome visitor, but when, by accident and without previous admonition, one of our best members is called to that bourne from which no traveler ever returns, we the more fully appreciate that 'in the midst of life we are in death.'

"This Chamber is called upon to record the death of Hon. Alexander E. Smith, who was kicked by a horse on September 27, 1897, and died from his injuries September 28, 1897; therefore be it

*Resolved*, By the Chamber of Commerce of the City of Fresno, that while we bow in humble submission to the will of an inscrutable Providence, we deeply mourn the death of this excellent member of society whose sterling character was manifest in his public and private life and of whom it can be truly said that 'if he erred it was of the head, not of the heart.'

"*Resolved*, That we deeply sympathize with his bereaved family in their irreparable loss, and while words of condolence under such circumstances appear idle and of no avail, yet we urge them to bear with fortitude the affliction visited upon them, and to put their trust in 'Him who doeth all things well.'

"*Resolved*, That this memorial be spread upon our minutes and that a copy thereof be forwarded to the family of our departed member.

JOHN REICHMAN,
LOUIS EINSTEIN,
Committee."

President Gundelfinger then addressed the meeting. He expressed gratification at the good attendance under the circumstances, and spoke enthusiastically of the work before the chamber this year.

"There are several matters engaging the attention of the executive committee at present," said the president, "that will come before the chamber. One of the most important, of which I cannot yet give you any detail, however, is the establishment of a park for Fresno. Our work has not assumed definite shape yet, but I can say that the executive committee is making satisfactory progress in the matter.

"The field for our labors is very extensive and there is room for us to do some good work."

On motion of Colonel Trevelyan the executive committee was instructed to take steps to assist in circulating "Imperial Fresno," the REPUBLICAN'S souvenir, throughout the country. The Colonel spoke in high terms of the book, as did also President Gundelfinger and John Reichman, the REPUBLICAN management being heartily thanked for its efforts in behalf of Fresno in issuing the publication. The president further stated that the Chamber had contemplated the issuance of such a book, and complimented the REPUBLICAN by saying that the paper had performed the task in a highly creditable manner. It will be a big and effective advertisement for Fresno county, and in the opinion of the men here it should be widely distributed.

**What Fruit Contains.**

Our ordinary fruits contain the following substances in greater or less proportions:

A large percentage of water.

Sugar, in the form of grape and fruit sugar.

Free organic acids, varying according to the kind of fruit. For example, the predominating acid is malic in the apple, tartaric in the grape, citric in the lemon.

Protein or albuminoids, substances containing nitrogen, which resemble the white of eggs and are its equivalent in food value.

Pectose, the substance which gives firmness to fruit and which upon boiling yields various fruit jellies.

Cellulose or vegetable fiber, the material that forms the cell walls, and which is found in all parts of plants.

A very small percentage of ash or mineral salts.—Dietetic and Hygienic Gazette.

**The "Dopper."**

It is not uncommon to find the epithet "dopper" applied to a Boer, as if the terms were synonymous. The name "dopper" is really derived from the Dutch word for an extinguisher, and it is properly applied only to the members of a religious sect which is desirous of extinguishing all theological opinions of a later date than the famous synod of Dort.

It has been recently established that the fusel oil in raw spirits can be removed by the introduction of a current of pure oxygen. The flavor of the spirit is not only improved, but its physiological action is much ameliorated.

It is estimated that 2,000,000 tons of pure silver are held in solution by all the waters of the earth.

Apoplexy has increased in England in a very remarkable degree since 1850. In the 10 years ending with 1866 there were 467 deaths from apoplexy per 1,000,000 inhabitants. Last year the ratio was 577 per 1,000,000.

**A Narrow Escape.**

Adam Vandever, one of the original settlers of Tallulah, Ga., was a famous hunter and trapper. The historian of Georgia relates several of Mr. Vandever's hairbreadth escapes, from which we select the following:

At one time Mr. Vandever was encamped on a lofty mountain in Union county. To make an observation of his surroundings he climbed upon an immense bowlder which stood on the brow of a precipice. Just then he heard the howl of a wolf in the woods below. He stepped to the far side of the bowlder, hoping to get a glimpse of the enemy. As he moved, the great rock, which chanced to be delicately balanced, began to roll, and an instant later it was plunging over the precipice.

Fortunately an oak tree drooped over the bowlder, and in that moment of peril the woodman gave an upward leap and grasped one of the branches and hung suspended in midair while the great stone went crashing down the mountain side.

"I felt my hair turn white," said the old gentleman afterward, "when I realized how near I'd come to going along with that rocking stone. The limb I hung to wa'n't overstout, and when I swung back from over the cliff and dropped to the ground I felt as weak as a baby."

LET US HAVE PEACE.

What means this meaningless tirade?
Preferring fight you will not run;
We lookers-on have all the fun.
No, not quite all—the daily press

One's freight is slow, the other's fast,
And so the fight could always last.
We love you both a little bit,
Preferring either not one whit.

# DOCTORS MEET.

## Valley Medical Society in Session.

### Interesting Discussions and a Pleasant Time at Bakersfield.

The meeting of the San Joaquin Medical Society at Bakersfield Tuesday was well attended and representative physicians from nearly every town in the valley were present. Much interest was manifested in the discussions, and the exchange of ideas resulted in the acquirement of considerable valuable knowledge, as the papers read before the society were prepared by capable men selected especially for their expert knowledge of the subjects considered.

Eight new members were admitted to the association, and after adjournment the Kern county physicians were organized into a county association.

Resolutions were passed calling on regular practitioners to use their influence to prevent the passage of lax medical laws by the state legislature.

The meeting closed with a banquet at the Southern hotel on Tuesday night.

Subjoined is the program as given. Several papers were not furnished by those selected to prepare them, and the original program was altered somewhat on that account:

J. H. Fulkerson, M. D., Bakersfield, "Hysteria," Discussion opened by W. H. Miller, M. D., of Hanford. A. J. Pedlar, M. D., Fresno, "Gastro-Intestinal Antisepsis." Discussion opened by C. A. Rogers, M. D., of Bakersfield, "Placenta Praevia," discussion opened by W. T. Maupin, M. D., of Fresno. "Chronic Hydrocephalus," presentation of case by Drs. W. H. Cook and J. L. Carson of Bakersfield.

The following physicians were present at the meeting: L. E. Felton, Hanford; A. J. Pedlar, E. C. Dunn, J. L. Maupin, O. J. Miner, G. H. Aiken, George A. Hare, I. S. Eshleman, Fresno; W. N. Sherman, Merced; R. A. Ferguson, T. E. Taggart, C. A. Rogers, Bakersfield; J. B. Rosson, Tulare; J. L. Carson, Bakersfield; Henry Hildreth, Delano; New members admitted: J. C. Moore, Lemoore; T. T. Roenig, Coulterville; F. H. Whitsitt, Kern City; S. F. Smith, H. Rogers, W. H. Cook, J. H. Fulkerson and T. W. Helm, Bakersfield.

The Fresno delegation returned home on yesterday morning's train and express satisfaction with their trip.

**What He Played.**

A member of a military band at a certain barrack came to the surgeon recently with a long face and a plaintive story about a sore throat.

"Sore throat, eh," said the surgeon pleasantly. "Let me see. Oh, that's not so bad. A slight irritation; nothing more. You'll be all right in a day or two. I think you had better take no risk in renewing the trouble by using your throat, though, so I will recommend you for a fortnight's sick leave."

Armed with the surgeon's certificate, the bandman obtained his two weeks' sick leave. The two weeks had just come to an end when he met the surgeon on the parade ground. The bandman saluted. The surgeon recognized the face and stopped.

"How's the throat?" he asked pleasantly.

"It's quite well, sir," was the reply.

"That's good," said the surgeon. "You can get back to your duty without fear. By the way, what instrument do you handle in the band?"

"The small drum, sir," said the musician.—Chicago News.

## NAMES IN JERSEY.

SOME OF THE TOWNS THAT MAY BE FOUND IN EVERY ATLAS.

**Picturesque Nomenclature That Is Original and Fresh From the Soil—A Native Jerseyman's Explanations of Some of the Appellations.**

"Other states may be bigger and richer and turn in a heavier vote," said the man with the woodbine whiskers twining gently about his face, "but for picturesqueness of nomenclature New Jersey takes the gold medal."

"You're from Jersey, sir, I suppose," said the man who had just come in from the smoking car.

"I am, sir, and I'm proud of it. I come in on this train every day to business in the city, and in my leisure moments I make a study of the geography of my native state. I may say, sir—I think I may say with confidence—that few men are so well informed as I upon this interesting subject of New Jersey's geographical nomenclature. You observe, sir, that I say New Jersey, not Jersey, which is an undignified beheading of a noble title."

"Possibly it is because I'm a New Yorker," said the man across the aisle, "but I have always thought New York to be pretty strong on interesting names."

"A great error, sir," declared he of the whiskers. "A very great error. Your names are mainly corrupted Indian titles or direct cribs from ancient days—Ithaca, Marathon, Utica, Homer, Virgil, Syracuse, Sempronius, Moravia, Rome, Cato, Palmyra and a score of others. You have borrowed the glories that should have been buried with Greece and Rome. Our titles, sir, are dug up from the soil and replete with meaning. Let me cite some."

Here he pulled a small notebook from his pocket, and the other man, with regretful politeness, said he would be glad to learn something on the subject.

"Consider, sir," continued the Jerseyite, "the appropriateness of such names as Ragtown, Breakfast Point, Camp Gaw, Polifly, Radix, Pluckemin, Pocktown, Tillietudelum and Succasuna."

"Some of them sound familiar," said the New Yorker, "but are all of those real names?"

"Every one of 'em on the map, sir," replied the other warmly. "I'll give you $100 for any one of those that isn't a real place, and they fairly reek of the soil. Now, here's another batch—Bone Hill, Wickatunk, Bamber, Atco, Wollyfield, Blue Anchor, Blazing Star, Hockamick, Jabokeyville, Oney's Hat, Kalarama, Flyat, Flickerville, Zingsem, Wakeake and Batsto."

"They sound as if they were taken from Jabberwocky," remarked the New Yorker. "They're utter nonsense."

"Taken straight from the countryside," averred the geographer. "They may not be very strong on sense. Those names I cite merely as instances of pure beauty of sound. If you're looking for meaning, I can give that to you. For instance, there are Barley Sheaf and Wheat Sheaf, poetically suggestive of the agricultural riches of our beautiful state. One domestic animals are commemorated in such fitting titles as Goosetown, Hensfoot, Hogtown, Monkeytown, Horseneck and Peacocktown, while for other animals there are Skunktown, Pole Tavern, which used to be Polecat Tavern; Postertown (if a poster ain't a wild animal I don't know what is), Snake Hill, Turtletown, Frogtown, and I don't know but what Batsto ought to come in there. The frogs get another show at Manunka Chunk, which is the name they gave it themselves, singing of nights out in the swamps.

"Now, for the temperance folk there are blazing signs of warning in such names as Whisky Lane, Gin Point, Jugtown and Bum Tavern. There used to be an innkeeper in the latter place, by the way, who sued the authorities once a year for maintaining such a title and always compromised for 5 cents, with which he bought himself a drink and was well satisfied. One year the authorities started in to fight the case and the innkeeper in disgust quit the business and Bum Tavern simultaneously. A place with a suggestive title is Naughright, which got its name from a large farm owner's sign, nailed on a tree at the roadside, 'No right of way here.' They got calling him Old No Right, and when the village sprung up they called it after him, but a man who had spelling reform the wrong way made it as it now stands. Speaking of spelling, there's one village you can spell either Packnack, Pacquanac, Pequanac or Pequanneck, but you can't pronounce it as the natives do, no matter which way you choose.

"There are some names more suggestive than beautiful—Scrabbletown, Scrapetown, Slabtown, Samptown and Solitude, for instance. Some belie their names, like Recklesstown, which is as peaceful as a graveyard and in the same general line of business, keeping its inhabitants buried far from the cares of this busy world. Then there's Roundabout, which is a plain four corners crossing, and Small Lots, with nothing but wide stretches of countryside. As for Pellettville, I've heard that there isn't a drug store there, but I can't swear as to that, not having been there for many years."

"Look here," put in the New Yorker. "I believe you're the man who writes the suburban stories in the comic papers and you're practicing names on me."

"You do me great injustice!" cried the geographer. "Every name has its local habitation, and you can find them all in the atlases. Next you'll be caviling at such well known places as Snufftown, Ringoes, Rustic, Absecon, Hackle Barney, Soho, Buchville, Rural Place, Sodom, Blue Ball, Allamuchy, Totowa, Buckshutem, Duty Neck, Warbass and Smith's Turn Out."

The New Yorker rubbed his nose and said nothing.—New York Sun.

### Two Queens.

"I was much struck," says Max Muller in Cosmopolis, "by the extraordinary power of observation of a French friend of mine, who, when in 1855 the queen and the Empress Eugenie entered the Grand Opera at Paris together and were received with immense applause, turned to his neighbor, an Englishman, and said, 'Look at the difference between your queen and our empress.' They had both bowed graciously and then sat down. 'Did you not observe,' he continued, 'how the empress looked round to see if there was a chair for her before she sat down? But your queen—a born queen—sat down without looking. She knew a chair must be there, as surely as she is queen of England.'"

### No Bargains.

"Eternal vigilance," shouted the orator, "is the price of liberty!"

The women electors exchanged glances.

"That is the same price as last year," they remarked, and shrugged their shoulders.

There were no bargains to be had, and they lost interest in the proceedings.—Odds and Ends.

## CUBE ROOT MADE EASY.

**How Any Bright Scholar May Learn to Tell It Offhand.**

To find the cube root of any given number of figures offhand seems an almost impossible feat, but yet it is simple enough when one knows how to do it—so simple, indeed, that any bright boy can learn to do it in a few weeks.

First he must know exactly what a cube is—namely, that it is the result of multiplying one number by itself and then multiplying the product by the original number. Thus, 3 multiplied by 3 equals 9, and 9 multiplied by 3, the original number, produces 27, which consequently is the cube of 3. The cube root of 27 is the original number, 3, and to find the cube root is the reverse of finding the cube. The would be adept at this art should first study carefully the following figures:

| | | |
|---|---|---|
| 1×1×1= 1 | 2×2×2= 8 | 3×3×3= 27 |
| 4×4×4= 64 | 5×5×5=125 | 6×6×6=216 |
| 7×7×7=343 | 8×8×8=512 | 9×9×9=729 |

A close study of these figures shows that 2 multiplied in this manner by itself results in 8, that 8 multiplied by itself has 2 as a final figure, that 3 multiplied by itself has 7 as a final figure, that 7 multiplied by itself has 3 as a final figure, and that 4, 5, 6 and 9 multiplied by themselves have their original figures as finals. Hence the "artist" knows that any sum given to him the final figure of which is 8 must have 2 as a cube root; that if the final figure be 9, the cube root must be 9, and so on.

For example, give him the figures 74,088, and he can at once tell that 42 is the cube root, for the reason that has 4 as a cube root, as the cube of 4 is 64, while the cube of 5 is 125, much more than 74, and 088 has 2 as a cube root.

Or give him a more difficult problem, as, for example, the figures 324,369. Then he will see at a glance that 324 is more than 216, which is the cube of 6, but is less than 343, the cube of 7. Therefore the cube root of these three figures is 6. In like manner the final figure of 369 being 9, it follows that the cube root of these three figures is 9, and thus the cube root of the six figures has been shown to be 69.

Any one can test this method for himself, and a little practice is all that is needed to make one as deft in such jugglery of figures as the best "lightning calculator."

Of course a skilled arithmetician could easily frame problems that could not be solved in this offhand fashion, but such difficult tests are seldom offered by public audiences, and, as a rule, the "artists" are easily able to answer all the questions asked of them.—New York Herald.

### How Cold Metals Sometimes Mix.

Professor Roberts-Austen's discoveries on the subject of the interdiffusibility of metals is most interesting reading. The facts have been to some extent known to savants before the meeting of the Royal society, at which more public attention was drawn, but on that occasion the results were made more clear. It was then shown that solid metals may be made to mix themselves as if the atoms were living creatures.

Professor Roberts-Austen has, in fact, discovered pieces of metal engaged in the very act of mixing themselves up one with the other. Of course the interest of this is that the interdiffusion of which we speak has been found to take place when the metals were cold, and, though this property in metals, to be capable of attaching themselves one to the other when cold, has been talked about before, nothing so clearly proved has hitherto been at the service of metallurgists and chemists as the facts adduced by Professor Roberts-Austen. He shows that when clean surfaces of lead and gold are held together in the absence of air at a temperature of 40 degrees for four days they unite firmly and can only be separated by a force equal to one-third of the breaking strain of the lead. The professor has also proved that if a plate of gold be laid under one of lead about three-tenths of an inch thick in three days gold will have risen and diffused itself to the top of the other metal in very appreciable quantity.—Colliery Guardian.

### Lord Palmerston.

A minister who kept race horses and had at his command a good store of very blunt vernacular, who could not be got to admit that he understood an abstract thought, who always knew what he wanted and was determined to carry it out regardless of the opinions of others, who conceived his own ideas to be superior to those of other people, who never looked farther than tomorrow and much preferred not to think beyond this evening, but who at the same time was determined to establish the privilege of an Englishman to the sidewalk all over the world, while men of other nations might step into the gutter—this minister represented aspirations which had long ago sickened under the rounded periods intended to convince humanity that bread and calico summed up their total requirements and were more sufficient for rational happiness. This was the popular conception of Palmerston when, in 1855, he became first minister of the crown.—"Yoke of Empire," by R. B. Brett.

### A Permanent Paste.

Soak an ounce of refined gelatin in cold water for an hour, then drain off and squeeze out the water as much as possible. Put the gelatin in a jelly pot and place the pot in a pan of hot water over the fire. When the gelatin has melted, stir in slowly 2½ ounces of pure alcohol. Put in a wide mouthed bottle and cork tightly. This glue or paste will keep indefinitely and can be melted for use in a few minutes by setting the bottle in a basin of hot water. As it contains a very small percentage of water it affects the gloss of the prints but little and dries almost immediately.—Harper's Round Table.

### A Despised Dog Law.

So unpopular at Hagerstown, Md., is the dog law, under which 125 animals have been impounded, that the people have determined to try ridicule as a means to bring about its abrogation. They purpose to erect a tablet to the dogs' memory and place on it the names of the mayor and the councilors who favor the law and figures of a mastiff rescuing a child and an ordinary dog that has just blown out the gas and died.

# PLAYING TWO PARTS.

## INSTANCES IN WHICH AN ACTOR HAS BEEN TWO MEN AT ONCE.

**The "Prisoner of Zenda," "Corsican Brothers" and the "Lyons Mail" Are Plays in Which It Is Necessary For the Star to Make These Quick Changes.**

To be able to play two parts in the same piece—to portray, perhaps two characters of totally different caliber—is not an undertaking which many actors care to attempt. It is only the experienced artist who may attempt the feat with impunity, and even then, though he may appear to the audience to achieve his end without an effort, there are many more difficulties in his path than meet the eye of the habitual theater goer.

Not only must the actor be possessed of no small amount of histrionic talent, but he must often call in the aid of an understudy, whose duty it is to gull the onlooker into the belief that their favorite is performing the impossible feat of being in two places at one and the same time. For in nearly every play of such a character it is well nigh impossible for the author so to arrange his piece that the actor may never be called upon to be on the stage with his double.

Any one who has been to see "The Prisoner of Zenda" performed at the St. James theater, must have marveled at the lightning celerity with which Mr. George Alexander, a moment before the drunken king of Ruritania, suddenly, as by some act of witchcraft, reappeared as Rudolf Rassendyll, clad in the ordinary costume of the English tourist. Then, to every one's surprise, the supine body of the king was carried in so that to all appearances Mr. Alexander was gazing upon his own person. In reality, of course, it was merely a lightning change, and the understudy had to be requisitioned to supply the person of the king.

A more famous case of double impersonation, however, is that of "The Corsican Brothers," the first play perhaps in which Sir Henry Irving gave us a taste of his wonderful talent.

In the first act—to give a slight resume of the play—the ghost of Louis, killed in a duel by a certain Chateau Renaud in the forest of Fontainebleau, appears to Fabien, his brother. The second act takes us to Paris, and through varied incident to the death of Louis. Here Irving was Louis.

In the third act, however, it is Fabien who is once more before us, who has constituted himself the avenger of his brother's death. He meets Chateau Renaud and demands satisfaction. Renaud is worsted and falls to the ground. Then suddenly the ghost of Louis appears, and, to personate the spirit of the dead man, Irving had had to fly to the wings, make his way below the stage and take his stand upon the trap, which conveyed him upward to the gaze of the thrilled spectators.

How was it done? The audience was amazed. Yet the explanation is comparatively simple: Irving stepped behind a "property" tree. His "double" instantly filled his place, taking good care not to face the audience when it was necessary for him to confront the ghost. Hence the lightning change from mortal to spirit and the resultant bewilderment of the beholders.

Neither is the "Corsican Brothers" the only play in which Irving has contrived to take a double part and yet nonplus the audience by the adroitness of his metamorphosis.

Those who are familiar with the "Lyons Mail" will doubtless remember the most telling scene in the play. Here Dubosc, the murderer, is in an attic, gazing down upon the preparations being made for the execution of the innocent Lesurques—whose likeness to the real murderer has brought him to such a terrible pass—an expression of horrible glee upon his face, clapping his hands as he sees the apparently doomed man step forward to his death.

But his exultation is premature. Lesurques is reprieved, and the crowd suddenly catches sight of the villainous face of the real murderer at the attic window. The door of the room is battered in. Behind it stands Dubosc. The wretch is dragged from his refuge, and as they do so Irving-Lesurques coolly walks in upon the scene of turmoil.

The door of the attic is made to open inward, thus shutting Irving-Dubosc from view of the auditorium. In a moment he slips through a trap. His "double" takes his place, to be hustled unceremoniously by the crowd of "supers," whose duty it is also to conceal the man's face in case the fraud should be discovered. Irving-Lesurques can then come on in his new role.

But an actor has been known to play two parts without the assistance of a dummy.

In a certain play it was the duty of the hero to leap out of the window of his room and to enter from a door on the opposite side of the stage clad in different clothes, though otherwise the same.

This, however, was juggling pure and simple. The actor dropped into his second dress in much the same way as an American fireman is reputed to jump into his uniform. The costume consisted of but one piece with a patent fastening down the back, and as he leaped through the window frame he leaped into his clothes, which, so to speak, shut behind him and left him rehabilitated.

Neither is the part of the understudy one to be given to any ordinary "super" from the mass of warriors, countrymen and the like that go to make up a stage crowd. He must be possessed of no slight amount of adaptability and smartness to enable his principal to go through his arduous task without a hitch.—Pearson's Weekly.

# BLACK ROCKS.

**A Story of the Early Days of the Connellsville Coal Region.**

A writer in Forest and Stream says that Elias Blank, one of the early settlers of what is now the great Connellsville coal region, in western Pennsylvania, was among the first Americans to burn soft coal. How the thing came about is thus described:

One night Mr. Blank was aroused by a rapping at his door. Opening it, he admitted a famous Indian fighter, Lewis Whetzell, and a companion, Jonathan Gates, commonly known as "Long Arms."

"Friend Lewis," said Blank, "where have thee and our friend been and where bound?"

"I want to get out of here at once," said Whetzell, "and Long Arms is of the same opinion. This country's bewitched, and Long Arms and I are nearly scared to death."

"Friend Lewis, thee must not tell such stories to me," said old Elias. "Thee knows I am thy friend, and I have saved thee when a price was on thy head. I know thou art a man of courage, and friend Jonathan Gates, whom some call Long Arms, fears nothing on earth, and I'm fearful nothing anywhere else, and yet thou tellest me that he and thee are scared even almost unto death. Shame on thee so to declare before thy friend, who loves ye both as he were thy father!"

"No, no, Elias," said Whetzell, dropping into the Quaker speech. "I tell thee no lie. We are scared. Yesterday afternoon we were in hiding about a mile from Dunkard creek, and in the evening we built a fire under the bank very carefully, and we got some black rocks to prop up a little kettle and put them beside the fire rather than in it, and the black rocks took fire and burned fiercely, with a filthy smoke and a bright light, and Long Arms said the devil would come if we staid, and we grabbed our kettle and poured out the water and made our way here, leaving the black rocks to burn."

Elias Blank was much interested. He did not tell Whetzell what the black rocks were, but he found out exactly where the men had made their fire, and when they went away he gave them each a new Ezra Eagle rifle, a knife and a tomahawk, with four pounds of powder and a supply of lead.

Then he hunted up their camping ground, found the "black rocks" and opened a coal bank into one of the river hills, and this coal bank is still in existence in a 12 foot vein of coal that is absolutely free from slate and burns like pitch.

### Resting at Unyanyembe.

My march is nearly over. I have got back into well beaten tracks and am even occupying a house where nearly every Englishman who has entered this region of Africa has lain and groaned over his fevers, his delays and the thousand and one troubles incidental to African travel. Livingstone waited here with patient resignation for months, ruminating no doubt now on the great lake, anon on the "great open sore of the world." Stanley barricaded and loopholed its walls in the war with Mirambo. Here Cameron groaned over his fevers and his delays, and before me rises the picture of Murphy, stout and burly, sinking with a groan to the ground, and Dillon, blind and helpless, lying wearily on his couch. In later times Captain Carter of elephant fame had to flee from the house as from a house infected, and but a few days ago his Scotch assistant and two Belgians were on the point of shooting each other with their revolvers, and, last of all, to close this "strange, eventful history," here lies yours truly, resting from his long and lonely march and feeling as if his work was o'er.

I am at the present moment a prey to that horrible scourge, prickly heat, making me feel as if needles were oozing out of every pore of my corpus. Mosquitoes by the million buzz about my ears, but sing no pleasant love song to my maddening brain. I am also a martyr to certain volcanic eruptions vulgarly known as boils, which prevent me from sitting, lying, walking or standing with any degree of comfort. Then the temperature is so high that at midday I have not got out of my pyjamas, while to get a breath of air I have continually to resort to the fan. —Biography of Joseph Thompson, African Explorer.

### Clean Shirts In Germany.

The Berlin Boersen-Courier tells about a German's invention of a paper shirt front which is intended to appeal to the large number of continental Germans who wear dickies. The shirt front has a paper collar polish and is in seven layers. As each layer is torn off it reveals another white, glistening front. Thus from one paper dicky the wearer may evolve a clean paper shirt front for every day in the week. The dicky is made to button to any kind of shirt. It costs but 30 pfennig, or about 7 cents; consequently the expense of a clean front is but a cent a day. In view of the prevalence of the dicky habit in Germany the inventor has taken steps to manufacture his compound shirt fronts in large quantities.

### Acids and the Teeth.

It is a dentist's word that acids are quite as injurious as sweets to the teeth, unless their traces are promptly removed. Oranges or apples eaten at night need the brush as certainly as do candy and other sweets. If persons would be careful, too, what is taken before a teeth filling appointment, those with sensitive teeth will find some mitigation to their suffering. Acids that set the teeth on edge are particularly to be avoided.

### Good Argument.

Yatsley—Mudge, what makes you laugh at your own stories?

Mudge—Why shouldn't I? If they were not worth laughing at, I would not tell them.—Indianapolis Journal.

### Edison's Marriage.

The idea of the great electrician Edison marrying was first suggested by an intimate friend, who told him that his large house and numerous servants ought to have a mistress. Although a very shy man, he seemed pleased with the proposition and timidly inquired whom he should marry. The friend somewhat testily replied, "Any one." But Edison was not without sentiment when the time came. One day, as he stood behind the chair of a Miss Stillwell, a telegraph operator in his employ, he was not a little surprised when she suddenly turned round and said, "Mr. Edison, I can always tell when you are behind me or near me." It was now Miss Stillwell's turn to be surprised, for Edison fronted the young lady, and, looking her full, said, "I've been thinking considerably about you of late, and if you are willing to marry me I would like to marry you." The young lady said she would consider the matter and talk it over with her mother. The result was that they were married a month later, and the union proved a very happy one.—San Francisco Argonaut.

### Those Love Letters.

Mrs. Newwed recently returned home to find her lord and master diligently tearing up the contents of a drawer.

"Why, Herbert, whatever are you doing," she exclaimed—"tearing up all our old love letters? The idea!"

"But these are no good now, dear. They only fill up the drawer."

"Yes they are, and I want them. Whatever made this sudden fit of tidiness come into your head?"

"Only this, my dear: When I die, some one who wished to break my will might get hold of them and use them to prove I was insane."—Pearson's Weekly.

### How to Keep Awake.

The American in England affords matter for much perplexity and astonishment to his English kinsmen.

A typical Yankee was being shown over an old church wherein hundreds of people were buried.

"A great many people sleep between these walls," said the guide, indicating the inscription covered floor with a sweep of his hand.

"So?" said the American. "Same way over in our country. Why don't you get a more interesting preacher?"—London Fun.

### HANDS OFF THE BIRDS.

Time was when man made ready war
And in his cavenned lair
Beaded his fellow's teeth and wore
The trophies in his hair.

Time is when ruthless savage, swart,
And slaves of fashion, fair,
Flay God's sweet choristers to sport
The trophies in their hair.

Where lies the onus of the doom?
What flaunt symbolic pain?
The principals are these for whom
The innocents are slain.

How long, Lord God, shall blood price gain
Buy inhumanity?
How long shall sanguined stigma stain
The brow of vanity?

Hands off the birds, whose worship pours
From every templed grove!
Let live earth's fittest metaphors
Of beauty, joy and love!

# LONDON'S PAST PLEASURES.

**How Its Inhabitants Amused Themselves a Century or Two Ago.**

The Londoner in the long past might retire to Bagnigge Wells, near the present King's Cross, or Florida gardens, Brompton (Brompton was noted 100 years ago for its "salubrious air"), or the Marylebone gardens and Bowling Green, mentioned by Pepys as "a pretty place" so long ago as 1668, or the Bayswater Tea gardens, which flourished till after the middle of the present century, there to sit in a summer house overgrown with honeysuckle and sweetbrier, drinking tea, then held in much esteem as a fashionable beverage, and eating cheese cakes, "heart cakes," Chelsea buns, syllabubs, jellies, creams, hot loaves, rolls and butter, while a band performed a concerto by Corelli or the last new composition by Mr. Handel, "The Master of Musick," or a singer gave the last new song by Dr. Arne. Afterward his visitors might enjoy the privilege of drinking new milk from the cow and picking flowers and fruit, "fresh every hour in the day," a great attraction, doubtless, for Londoners at a period when fruit and flowers were neither so cheap nor so abundant in the metropolis as they are at present. Nor were more artificial amusements lacking. In addition to illuminations, fireworks and masquerades, attended by the world of fashion from princes downward, there were miscellaneous entertainments of every sort.

A high scaffolding was erected in Marylebone gardens in 1736 for a predecessor of Blondin called "the flying man," who was advertised to fly down on a rope pushing a wheelbarrow before him. In May, 1785, Lunardi, the first aeronaut who went up in a balloon in England and was quaintly called "the first aerial traveler in English atmosphere" by contemporary prints, descended unexpectedly one afternoon in the Adam and Eve Tea gardens in the neighborhood of Tottenham Court road, then a resort of fashion, and was uproariously welcomed by the populace in acknowledgment of his flight. Later on aeronautic flights became a special feature of all these pleasure gardens. Ponds containing goldfish—a novelty in the middle of the eighteenth century—were reckoned as another of their special attractions and were advertised as "gold and silver fish, which afford pleasing ideas to every spectator."—Temple Bar.

### Japanese English.

The Rev. Musazno Kagaren brought me a present of a tin of native preserved apricots put up at Nagano, bearing the inscription, "This apricots is very sweetest." Another tin—I think it was a sort of Japanese "Liebig"—was still more remarkably inscribed: "All the medicines of our company used to sell are not only manufactured of the pure and good material, but also, unless the article are inspected by the superintendent, they not sealed. It is true that their quality is best. If there was suspection about it, trust on official examination. If even in the slightest neglect the result is not good, our company should be responsible for it. Beware the trademark, sealing wax and wrapper of our company." In this connection I may remark on the curious signs in English (?) composed in cheerful independence of outside help. I have seen the equivalent of the English "mangling done here" rendered "the machine for smoothing the wrinkles in the trousers" and "Washman, ladies only," "Clothing of woman tailor, ladies furnished in upper story," "Instructed by the French horse leech," (this adorned the door of a veterinary surgeon and referred to the tuition under which the gentleman was trained). — From "Mountaineering In the Japanese Alps," by Rev. Walter Weston.

### Inopportune Shelling.

The troops were storming a temple or a palace, and O'Shaughnessy stopped before a mirror and stood twirling his mustache and admiring himself, though the bullets were whistling round him.

"Bedad, Shaugh," he said to himself, with a grin, "you're a fine figure of a man."

Crash came a bit of lead, which starred the said mirror into a thousand cracks, quite obliterating Shaugh's features.

"Bedad," said he coolly, "ya've sp'iled a foine view that I had of meself."—London Mail.

### The Minister's Mistake.

In a rural parish in the Mearns an Aberdeen divine, who had driven over in a hired vehicle, occupied the pulpit. Only one person attended service, and the minister apologized for the length of his discourse. His audience signified his approval of his preaching, and the minister continued. Guess his consternation when he discovered his audience consisted of his driver, who had been engaged by the hour.—Edinburgh Dispatch.

The people of the United States read and support as many newspapers as England, France and Germany combined.

### Woes of the Jeweler.

"We are not running around looking for jobs at mending jewelry," said a salesman in a large Chestnut street jewelry house, "and we don't shriek with joy when such jobs come in to us unsolicited. You wouldn't believe it, possibly, but we are not fond of assuming charge of anything to be mended unless it comes from a well known customer. The greatest trouble is due to the forgetfulness of strangers, who take a watch or a ring to a certain store to be fixed and neglect to remember the exact address of that store. You'd be surprised how many cases of that sort we have to bother us.

"Why, only the other day a man came in here and asked if we had finished the 'mate' for his odd cuff button. We hadn't seen his cuff button and told him so. He was indignant. 'What!' he yelled. 'Trying to beat me out of it?' Then he called us all kinds of names and threatened to bring suit against us. Well, I simply had to do the usual detective business and trace that lost cuff button. I put on my hat while the man was wrangling with the head of the firm and started up Chestnut street, making inquiries in all the jewelry stores. I finally found the old cuff button three blocks away in a store that didn't look at all like ours. When I told the man where his button was, he wouldn't believe me. 'Utterly impossible!' he said. However, he went out, and we haven't seen him since. That's one case out of many."—Philadelphia Record.

### A Roman Candidate.

The aspirant to public office, like other Roman gentlemen of station, has a few slaves, perhaps 50 or so, according to his wealth. His cubicularius, otherwise valet, attends upon him and brings him the robe which is so artistically whitened that from it he gets his name of candidate. No tunic or fancy waistcoat must be worn today, in order that the candidate may better bare his breast to display the wounds acquired in the service of his country. After duly submitting himself to the hands of another slave, his barber, and after partaking of a slight but dainty breakfast, he is ready to go forth. It is market day, and he must show himself to the people, or he must go to the polling place, the Campus Martius, or pay a visit to the forum.

On going abroad he must be accompanied not only by his supporters, but by a few of his personal slaves. They do not all accompany him upon the occasion. His cook, for instance, for whom his master had to pay more than for his doctor or even for a learned professor, must stay at home in order, with the other slaves, his satellites, to prepare toothsome morsels for the candidate and his guests on their return from the fatigues of the day's canvass. As becomes the dignity of the occasion, his scurra, or buffoon, will not accompany him; but, on the other hand, no self respecting candidate would wish to show himself without just a few of his attendant slaves.—Catholic World.

### Imposing on the Dealers.

Aside from kid gloves, there is no article sold in connection with which merchants are so imposed upon by their "best" customers as umbrellas. This is a tender theme. The tempers of the wives of our best customers are not to be trifled with when it comes to returning half worn gloves or umbrellas. With a dignity not attained on any other hemisphere in the habitable globe, she sails into the store of the merchant, slams down the battered relic that has acted as playhouse and tent for the children of the neighborhood and demands a new umbrella for the "miserable apology sold her only three months ago." She declares it has only been used three times and only with the greatest care. The merchant has to accept this as final, offers her the choice of his stock, and she sallies forth with the air of a conqueror, conscious that she has triumphed. Then he pockets his loss and wonders what the next imposition will be, and people wonder why so many retail merchants fail or commit suicide. If an umbrella is properly made, of good material and decently used, it will wear for years.—Hardware.

The California Savings and Loan Society, a corporation, plaintiff, vs. J. P. Koch, Robert Mack, E. B. Perrin, D. J. Guggenhime, E. M. Stieljes, Frank H. Short, O. H. Williams, Sarah A. Williams, The Fresno Land Company, a corporation, John D and Mary Roe, defendants.

Action brought in the superior court of the county of Fresno, State of California, and the complaint filed in the office of the clerk of said county. J. F. Cowdery, attorney for plaintiff.

THE PEOPLE OF THE STATE OF CALIfornia send greeting to J. P. Koch, Robert Mack, E. B. Perrin, D. J. Guggenhime, E. M. Stieljes, Frank H. Short, O. H. Williams, Sarah A. Williams, The Fresno Land Company, a corporation, John Doe and Mary Roe, defendants.

You are hereby required to appear in an action brought against you by the above named plaintiff, in the superior court of the county of Fresno, State of California, to answer the complaint filed therein, within ten days, exclusive of the day of service, after the service on you of this summons if served within this county, or if served elsewhere, within thirty days.

The said action is brought to obtain a decree of this court for foreclosure of a mortgage, described in said complaint, made, executed and delivered, by said defendants, J. P. Koch and Robert Mack, to said defendant, E. B. Perrin and one J. H. Randol, on the 9th day of December, 1890, to secure payment of a promissory note of same date described in said mortgage and complaint, made, executed and delivered by said defendants, Koch and Mack, to said defendant, Perrin and said Randol, payable four years after date, for the sum of $13,000.00 with interest at the rate of seven—7—per cent per annum, interest payable semi-annually, and if not so paid to be compounded.

That said mortgage was recorded in Recorder's office, Fresno county, in Vol. 75 of mortgages, page 392, et seq., and affects that certain real property, situated in Fresno county, State of California, described as follows, to-wit:

Lots 212, 213, 214, 178, 179, 180, 181, 182, 143, 144, 147, 122, 146, 148, east ½ of 193, 205, 206, 207, 208, 201, east ½ of 183, east ½ of 184, containing together about four hundred and ten—410—acres as laid down and designated on the map thereof, entitled, map of Perrin Colony No. 2, which map was filed for record in the office of the county recorder of said Fresno county, on the eighth—8—day of October, 1890, and is hereby referred to for further or more description.

Plaintiff alleges that on December 27th, 1892, said Randol, assigned all of his interest in said note and mortgage to said defendant Perrin and thereupon said defendant Perrin, assigned said note and mortgage to plaintiff herein, who is still the holder and owner of said promissory note and mortgage.

That at the request of defendant E. B. Perrin, and defendants J. P. Koch and Robert Mack, plaintiff released the west half of number two hundred and thirteen, all of lots (201, 207, 208, 143, 181) two hundred and one, two hundred and seven, two hundred and eight, one hundred and forty-three, and one hundred and eighty-one, have been released from the operation of said mortgage.

Plaintiff alleges that there is now due and unpaid on said promissory note and mortgage to plaintiff, the sum of $13,000.00 with interest thereon from December 9th, 1890, at the rate of seven—7—per cent per annum, all in gold coin of the United States.

Plaintiff further alleges that the value of the property described in said mortgage is not sufficient to discharge the amounts due to the plaintiff upon said promissory note and that said property produces an income from rents which should be equitably applied in satisfaction of said debt; and that it is necessary, in order to protect the plaintiff, that a receiver of said property should be appointed in this action to collect the said rents and to apply them as this court may direct by its decree in this action.

Plaintiff prays for judgment against defendants J. P. Koch and Robert Mack, for $13,000.00 in gold coin and interest thereon at seven—7—per cent per annum from December 9th, 1890.

That a receiver be appointed by the court in this action upon the filing of the complaint, or at any time thereafter upon plaintiff's motion to take possession of said premises, and to receive the rents, issues and profits thereof, and to apply them as this court by its final decree may direct.

That the usual decree be made for the sale of said mortgaged property for gold coin of the United States by a commissioner appointed by this court, according to law and the practice of this court; that the proceeds of such sale be applied to the expense of such sale, and to the payment of the judgment in this action; that all of said defendants and all persons claiming from or under them or from or under either of them subsequent to the execution and recording of said mortgage as aforesaid, be barred and forever foreclosed of and from all right, and claim or equity of redemption in said described mortgaged real property, and every part and parcel thereof.

That the plaintiff or any other party to this action may become the purchaser at said sale. That a proper and sufficient deed of conveyance of said real property when so sold be executed to the purchaser, and that said purchaser be let into the possession of such real property and for judgment against the makers of said note for any deficiency. And for such other and further relief in the premises as shall appear to be meet and agreeable to equity, as will more fully appear by reference to said complaint.

And you are hereby notified, that if you fail to appear and answer said complaint as above required, said plaintiff will apply to the court for the relief demanded in said complaint.

Given under my hand and the seal of the Superior court of the county of Fresno, state of California, this 11th day of December, 1896.
